

Bullet Resistant Equipment

Creative Industries Inc

Package Receiver

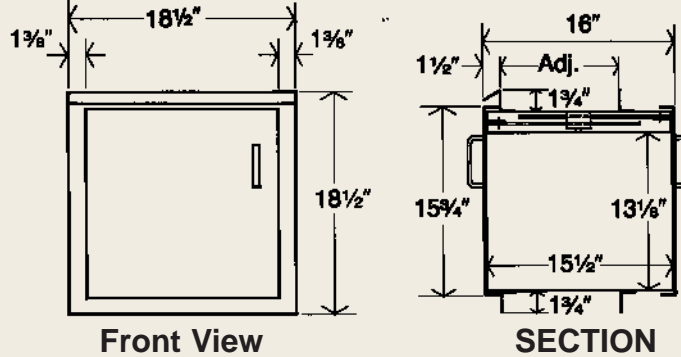

Package Receiver available with Class I and III bullet resistant protection.
 Clear inside dimensions:
 14 3/4" wide x 13 1/8" high x 15 1/2" deep.

Package Receiver accommodates larger items for transfer. It has inter-locking mechanism to allow only one door at a time to open. Front door can be locked from rear side with special locking bar. Closer is furnished on front door.

Package Receiver mounts into wall up to 11 1/2" thick. Adjustable frame on interior side mounts against wall in field. Exterior flange has rain cap along top edge.

Finish options: Stainless steel doors with prime painted housing.
 Prime painted doors and housing.

Wall opening size: 15 1/2" wide x 15 1/2" high.

Package Receiver with Vision Panel PR-VP

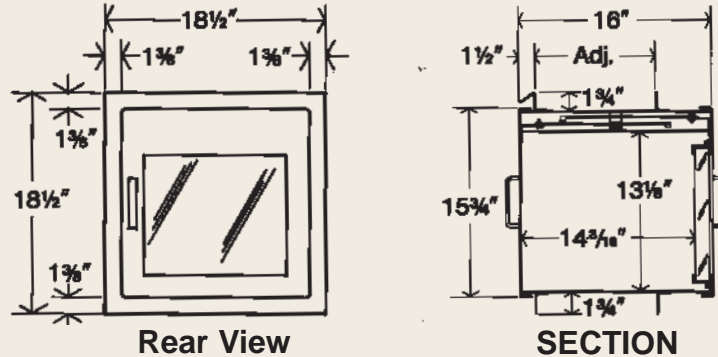

It is same as standard package receiver above except vision panel in rear door enables operator to see contents inside unit.

Construction: Prime painted steel housing and stainless steel doors.

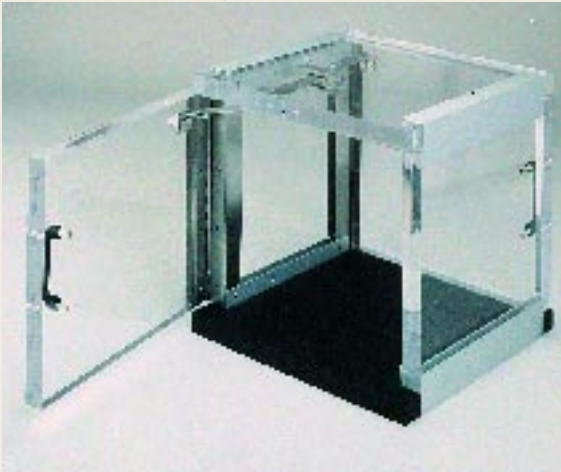

Vision panel: Class I - 1 1/4" acrylic or Class III - 1 1/4" Lexgard.

Clear inside dimensions: 14 3/8" wide x 13 1/8" high x 14 3/16" deep.

Wall opening size: 15 1/2" wide x 15 1/2" high.

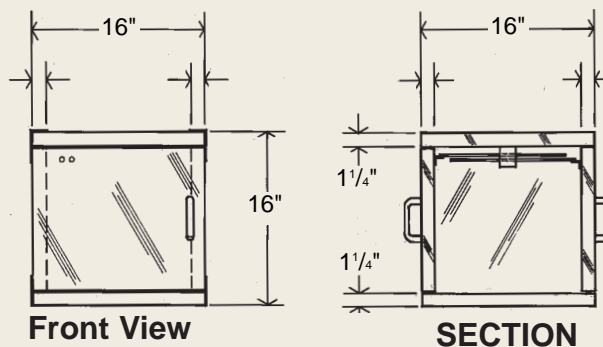

Clear Package Receiver

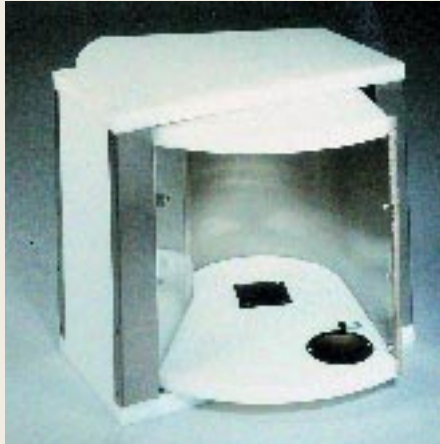

Clear Package Receiver is for interior use only. Clear acrylic housing is fastened together with special aluminum extrusions. Clear acrylic doors allow plain view of contents. Bottom is made of plastic laminated plywood and bullet resistant fiberglass. Unit mounts on counter top. Special inter-locking mechanism allows only one door at a time to open.

Class I or III bullet resistant protection.

Clear inside dimensions: 13 5/16" wide x 12 1/2" high x 13 3/8" deep.

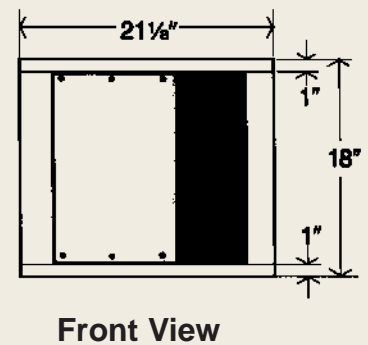

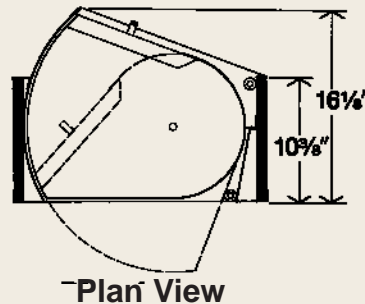

Carri Bell delivers fast repetitious service for long periods of time. Its operating motion is probably the quickest of our pass thrus

The bell shaped drum pivots outward to customer, then inward to operator. Drum locks with a drop bolt. Carri Bell has stainless steel inner walls, bullet resistant plastic on top, bottom, shelf and exterior sides. Operator's side has clear acrylic panel for full view of contents. Class I bullet resistant protection. Carri Bell is large enough for a 24 pack of canned beverage, 3 gallons of milk, 4 gallons of antifreeze or 7 two liter bottles.

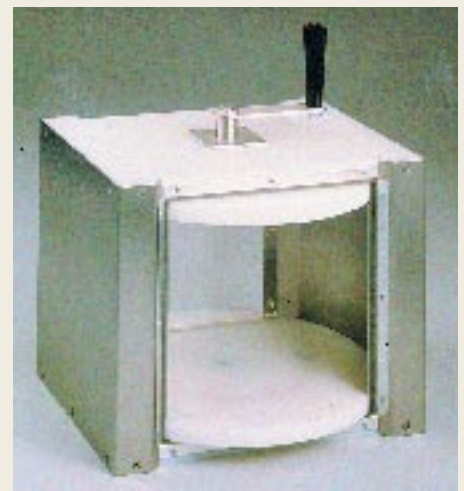

Options: Clear panel for customer's side.
Weatherstrip for exterior use.

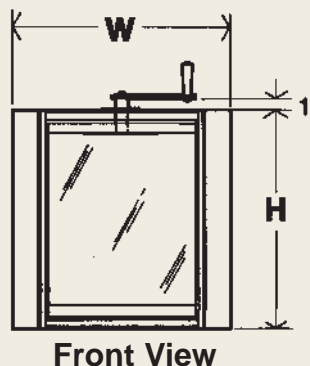

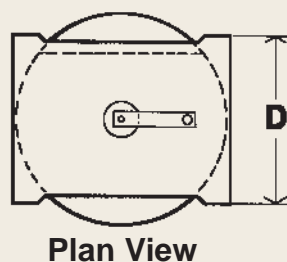

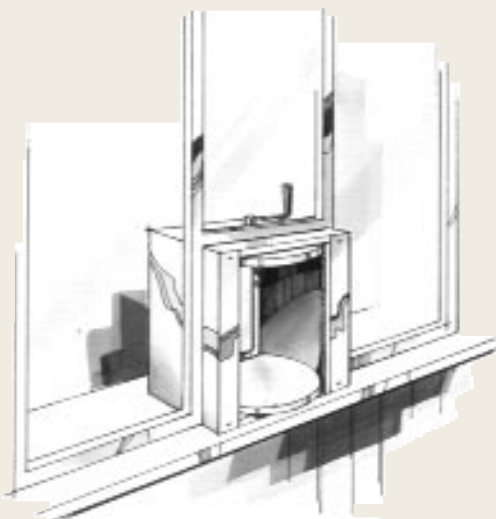

Exterior Lazy Susan LSW-CR

Exterior Lazy Susan is equipped with weather-strip for outdoor use eliminating direct entry of outside air into the building. This unit has stainless steel sides and inner drum with a clear acrylic window for viewing of contents. Top and bottom are bullet resistant plastic. Only one moving part - the inner drum - rotates with smooth movement. Crank handle on top turns the drum 180 degrees. Lazy Susan locks with a drop bolt. In locked position the stainless steel drum is turned to customer for maximum security. Unit mounts on counter top or in wall opening.

Class I bullet resistant protection. Standard sizes are listed below.

LSW-CR 1512 is large enough for six pack of drinks or gallon of milk.

Model	W	H	D
LSW-CR 1512	15"	12"	11 ⁵ / ₈ "
LSW-CR 1820	18"	20"	13 ⁷ / ₈ "
LSW-CR 2418	24"	18"	18"
LSW-CR 2618	26"	18"	19 ⁵ / ₈ "

Pass Hoppers

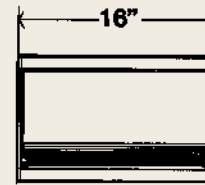

All stainless steel Pass Hopper mounts on counter top, in wall or window opening. Hopper pivots outward for customer access, then in opposite direction for operator access. Only one moving part allows virtually maintenance free service. Pass Hopper is equipped with weatherstrip for exterior use. Standard models provide Class I bullet resistant protection. Class III protection is an extra option.

Pass Hopper is available with stationary exterior flange and loose adjustable flange for rear side.

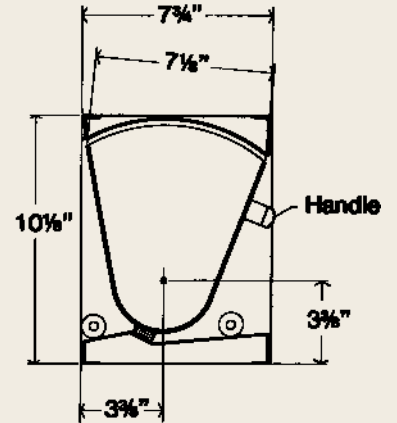

Pass Hopper with flange.

Pass Hopper PHE-1

Front View

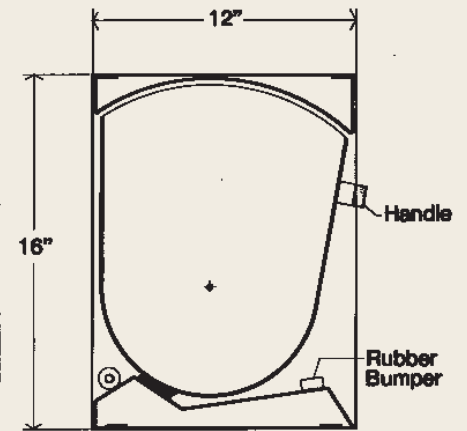

SECTION

Pass Hopper can handle a gallon of antifreeze, two liter beverage or bag of coins. Hopper locks with latch.

Pass Hopper PHE-2

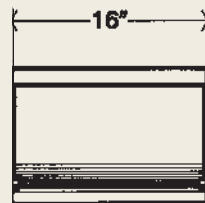

Front View

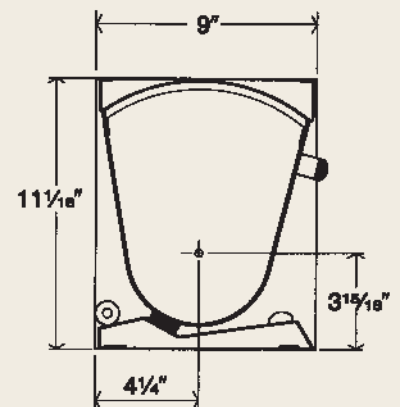

SECTION

Largest pass Hopper provides ample capacity for larger bulky items. Equipped with stainless steel handle and round turn latch.

Pass Hopper PHE-3

Front View

SECTION

Pass Hopper can accommodate a three liter beverage or gallon of milk.

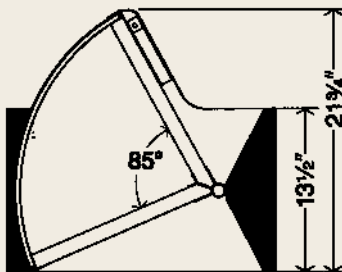

For drive-up or walk-up service, Safti Server provides bullet resistant protection while holding energy loss to a minimum. It allows no direct entry of outside air into the building.

Safti Server has only one moving part (the shelf) which turns both inward and outward to allow access to contents. Shelf extends approximately 15" from face of building when turned to customer.

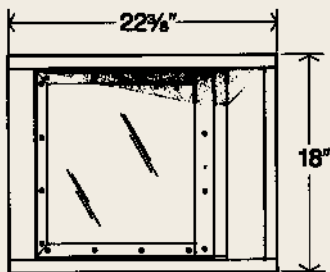

Safti Server locks with the two adjacent acrylic doors forming an insulated barrier between outside and inside air. Unit mounts on window ledge, in wall opening or on counter top.

It has clear inside height of 14 1/2". Top, bottom and shelf are bullet resistant plastic. Sides are clear or bronze anodized aluminum. Doors are clear 1 1/4" thick acrylic.

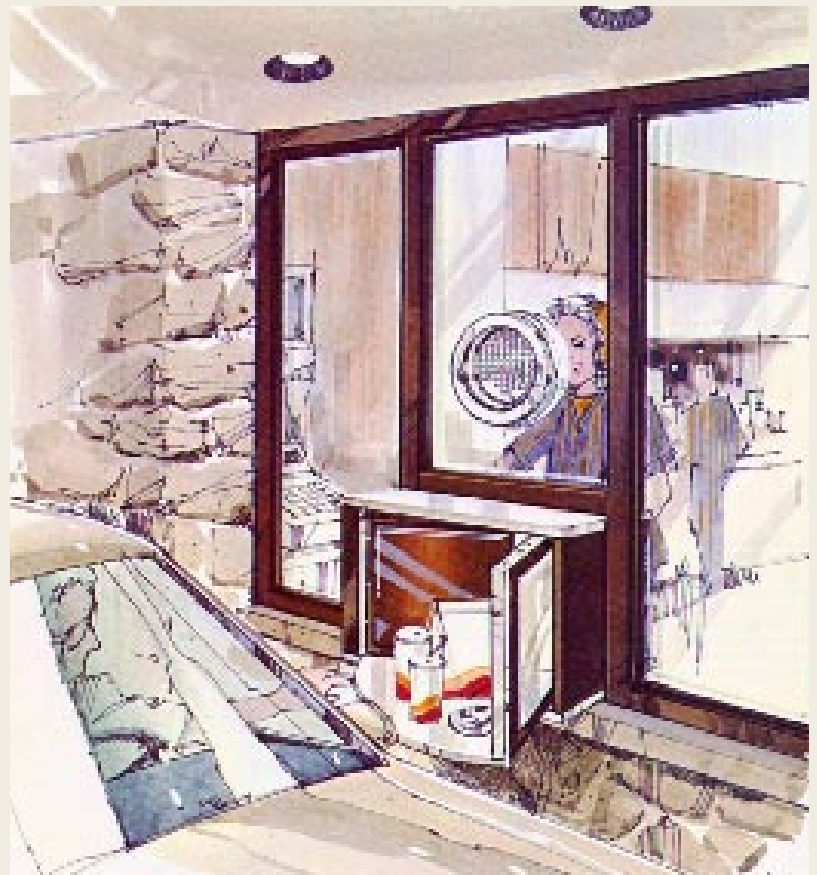

Class I bullet resistant.

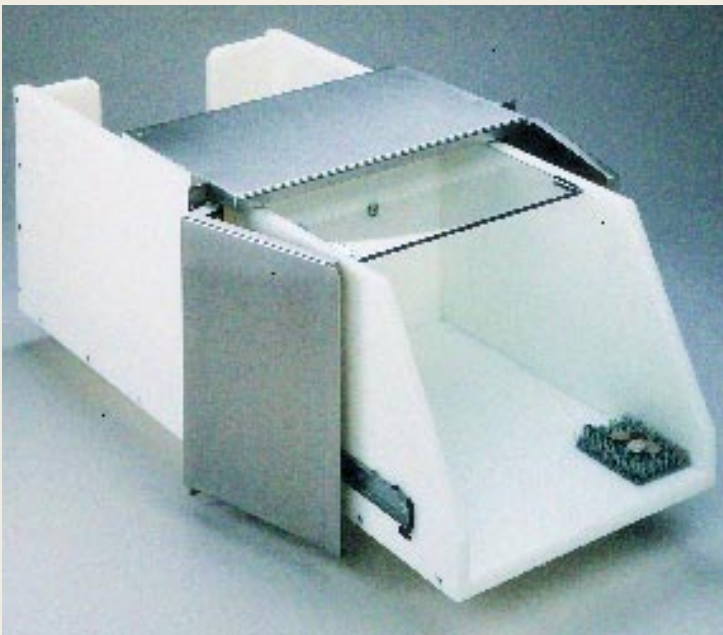

Plan View

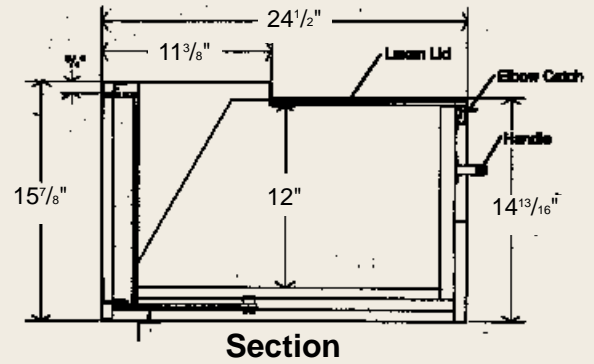

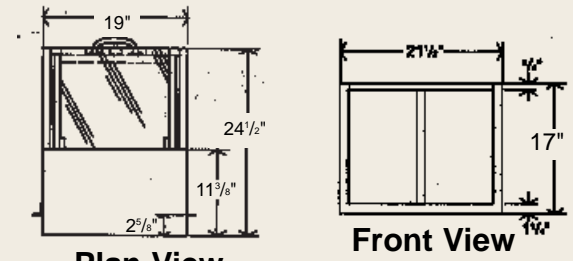

Front View

Transaction Drawer 1924-DD

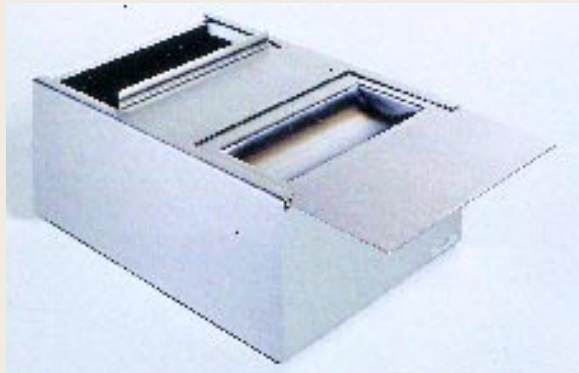

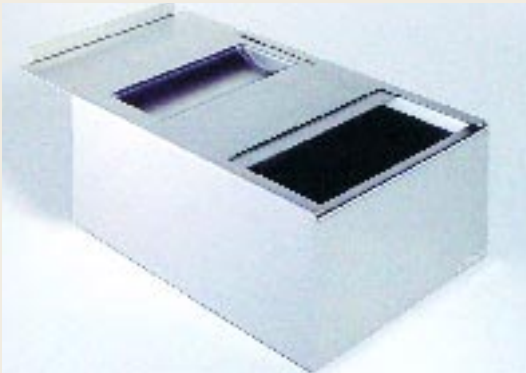

1924-DD Transaction Drawer is bullet resistant and weather resistant. It is well suited for drive-up service. Drawer moves on heavy duty ball bearing slides and the front doors open as drawer is extended. The drawer locks automatically when closed. Lexan lid permits clear view inside drawer and remains closed when drawer is open to customer. Bill clip and coin pad are furnished inside drawer to hold currency.

Drawer can be mounted in wall up to 8 5/8" thick. Drawer and housing are constructed of bullet resistant plastic. Doors, hood and flange are stainless steel. Drawer inside dimensions: 14 1/2" wide x 12" high X 20" deep. Drawer extensions: 15 1/2". Wall opening size: 19 1/4" wide x 16 1/2" high. Class I bullet resistant.

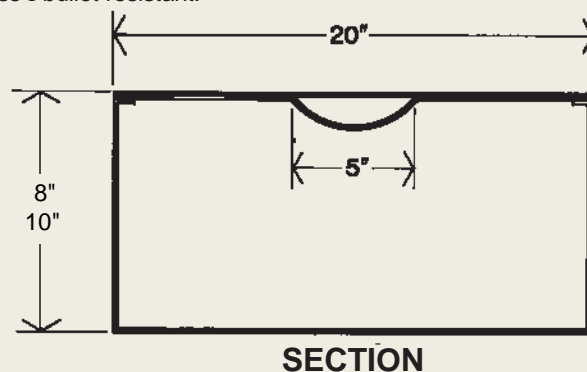

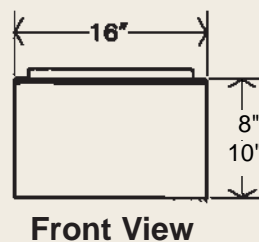

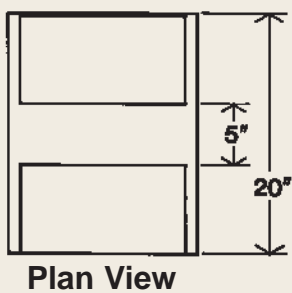

Slide Top ST 1620

Slide Top serves both as deal tray and pass thru. Recessed deal tray in center of sliding lid moves forward or backward beneath the center ledge for transaction of currency and small items. Bulkier items can pass through the larger cavity below.

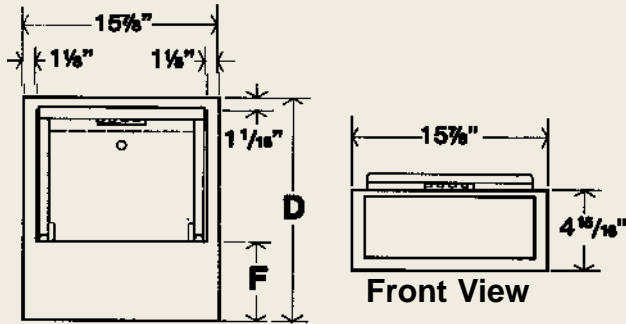

Slide Top is constructed of stainless steel. It can be mounted in wall opening or on counter, with window centered above the center ledge. Available in 8 inch or 10 inch height.

Unit is Class I bullet resistant.

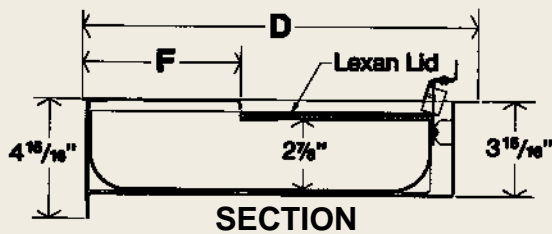

Deal Drawers

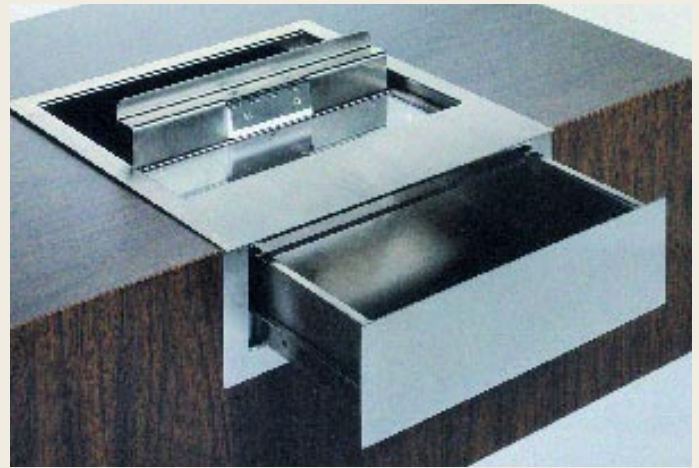

Deal Drawer recesses in counter top along front to achieve flush appearance. Glazing (by others) sets above the flat hood portion of drawer. Full width handle across rear of drawer along with smooth solid bearing slides allows easy operation. Lexan lid stays closed when drawer is extended. Drawer unit has stainless steel construction.

Cash Drawer 1618

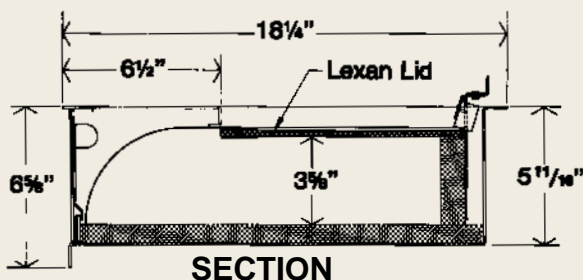

Cash Drawer has stainless steel housing with bullet resistant plastic drawer. Unit mounts in counter top along front edge. Glazing (by others) should set above the flat hood portion of drawer. As drawer slides out the stainless steel front panel pivots upward. Movement is controlled by the full width handle across rear of drawer. Lexan lid stays closed when drawer is extended. This unit is designed for long life as there are no slides to wear out.

Counter top opening size: 14 1/2" wide x 17 1/8" deep x 5 3/4" high.
Drawer extension: 9"

Inside dimensions of drawer: 12" wide x 14 5/8" deep x 3 5/8" high.

1724 WW and 1728 WW Transaction

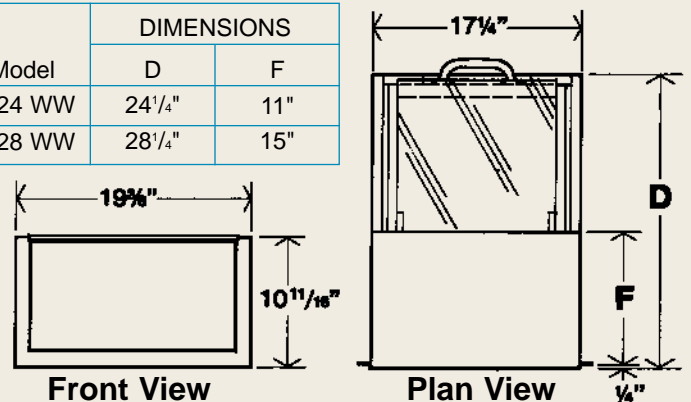

WW Series Transaction Drawer is designed with exterior walk-up service in mind. It has an extra deep stainless steel hood which enables it to fit thicker walls. The Lexan lid prevents direct entry of outside air while allowing clear view of drawer interior. Drawer movement is controlled by a large aluminum handle on rear. Front of unit is stainless steel. Easy operation is allowed by smooth running ball bearing extension sides.

Drawer is furnished with bill clip and brush type coin pad and locks with drop bolt through bottom of drawer into housing.

Transaction Drawer 1724-SCL

Patented

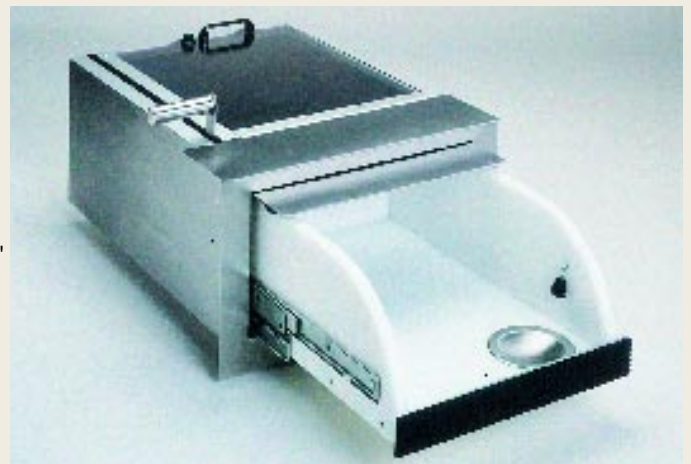

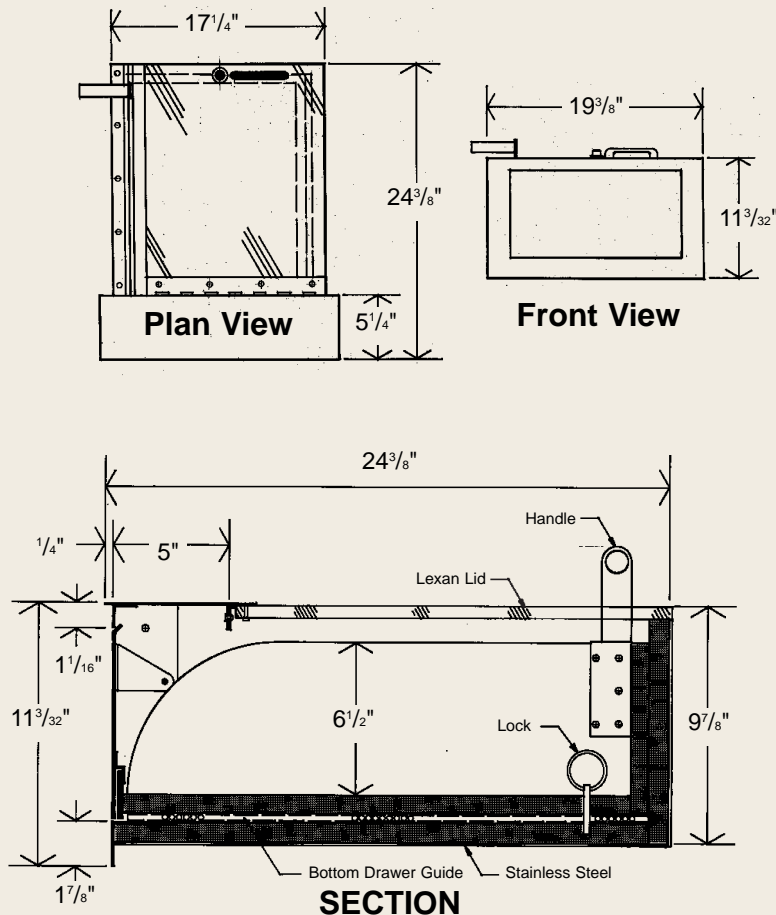

Patented Transaction Drawer No. 1724-SCL has its lid and front door synchronized to open and close with no chance of the lid being left open when drawer is extended. As drawer closes, the lid returns to slanted position allowing operator's access to contents.

Drawer constructed of bullet resistant plastic. Housing is 3/4" exterior plywood with stainless steel on exposed surfaces. Face, hood, lid, handle and coin scoop are stainless steel. Drawer has Class I bullet resistant protection.

Drawer extension: 14 1/4"

Wall opening size: 17 1/2" wide x 11 1/2" high.

Transaction Drawer 1724-SS

Transaction Drawer No. 1724-SS is suited for drive-up and walk-up service. This drawer is weather resistant. Lexan lid allows clear view of contents while preventing direct entry of outside air. Push button latch keeps lid locked when closed.

As drawer moves outward the stainless steel front panel pivots upward and inward. Drawer locks with drop bolt. Coin scoop and bill clip are included.

Front View

Transaction Drawer No. 2725-SS is designed for exterior walk-up and drive-up service. This drawer is weather resistant as well as bullet resistant. Stainless steel front panel pivots upward and inward as drawer moves outward. Movement is provided by smooth running extension slides. Drawer locks with a drop bolt. Coin scoop and bill clip are included. Clear Lexan lid allows clear view of contents.

Drawer is constructed of bullet resistant plastic.

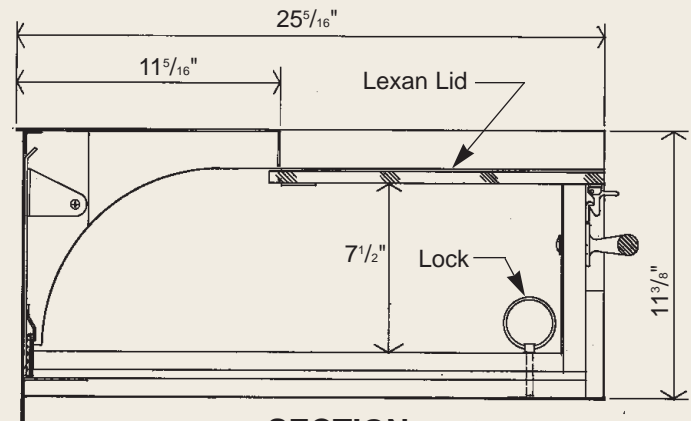

Drawer extension: 19"

Wall opening size: 27³/₈" x 11¹/₂" high

Drawer inside dimensions: 23¹/₄" wide x 22¹/₂" deep x 7¹/₂" high

Class I bullet resistant

Door, frame, hood, and coin scoop are stainless steel.

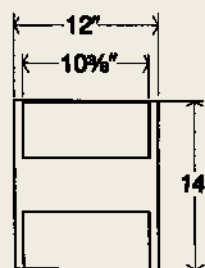

SECTION

Sliding Lid Model Deal Tray No. 1214 SL

Clear inside width: 10 3/8"
Clear inside height: 2 1/8"

Sliding lid deal tray is designed for maximum protection against all hand guns, including the .44 magnum. Stainless steel construction, lid slides forward or backward to uncover open deal tray below. Unit mounts on counter top, with customer's window positioned across the top center ledge above the lid.

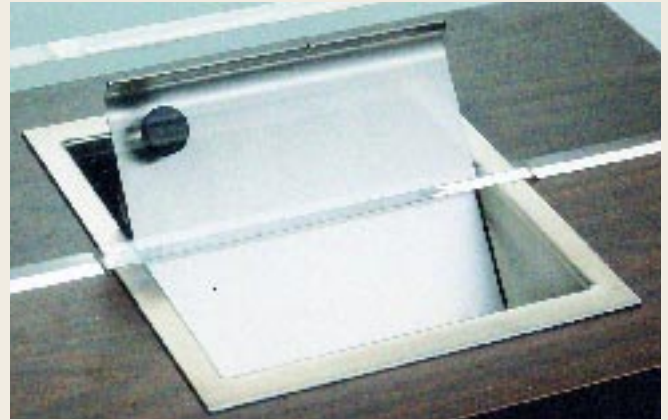

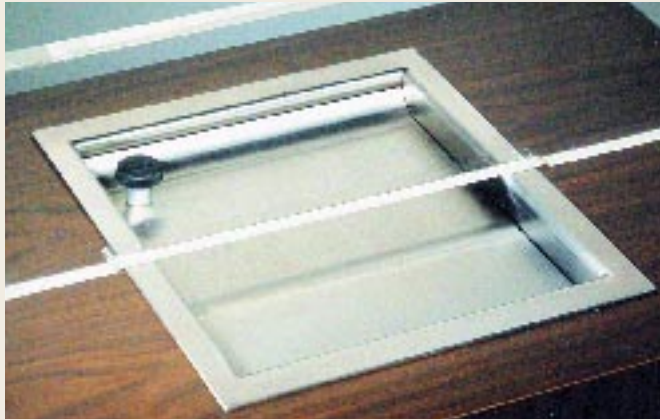

Plan View

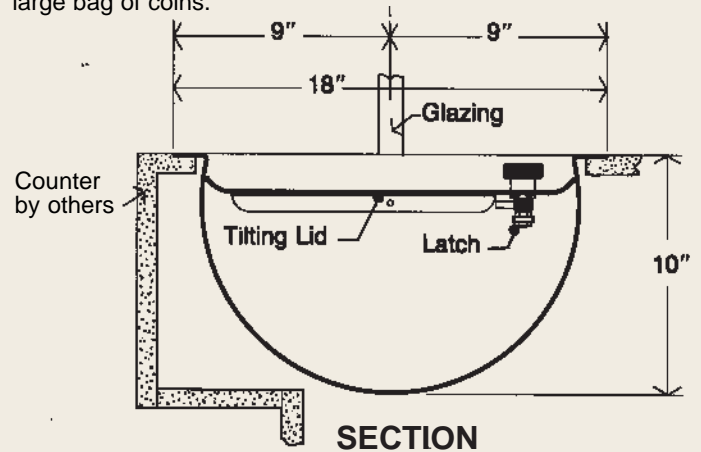

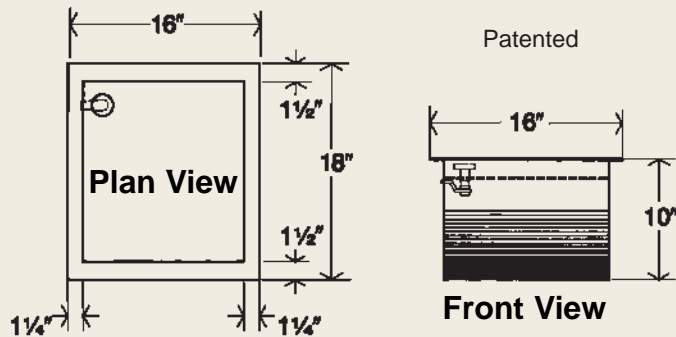

SECTION

Swivel-Thru No. 1 Combination Pass Thru and Deal Tray

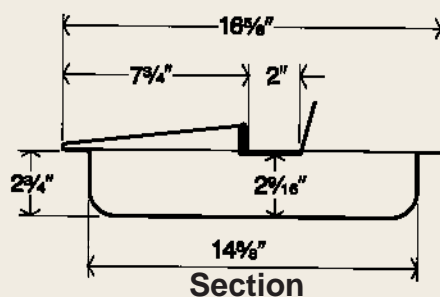

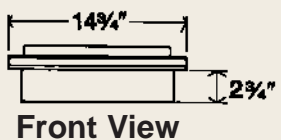

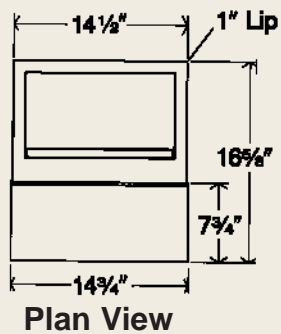

Stainless steel Swivel-Thru sets in transaction area of counter, centered beneath the bullet resistant window. For normal currency transactions the deal tray (lid) is locked in horizontal position by a turn latch incorporated in the knob. For larger items the deal tray is tilted upward to the lower edge of window to uncover the open drum below. After larger

item is placed in open drum, deal tray is rotated in opposite direction by operator for access to drum contents. The Swivel-Thru is bullet resistant in all positions. It has the appearance of an ordinary deal tray when mounted in place, not detracting from aesthetics of counter. Unit is large enough to accommodate items such as an eight pack of drinks or large bag of coins.

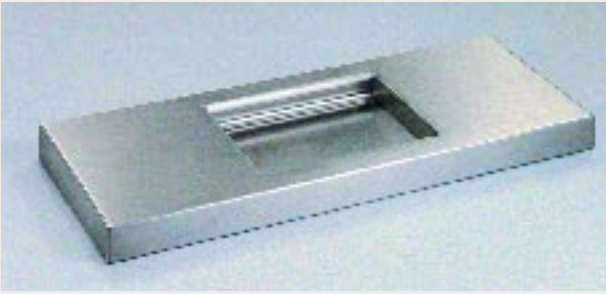

Recessed Deal Tray with Flip Lid FLR 1416

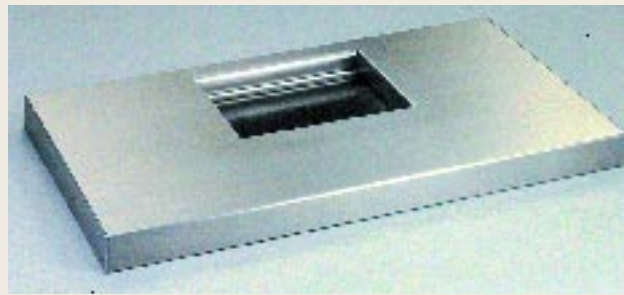

Recessed deal tray with flip lid is designed for outdoor use. This stainless steel unit mounts in counter top opening below window. Slanted lid on customer's side of window helps keep inside of deal tray dry. Downward push on rear pull opens deal tray to customer. Unit can handle items large as cigarette carton. Hole cut out size: 13" wide x 15" deep.

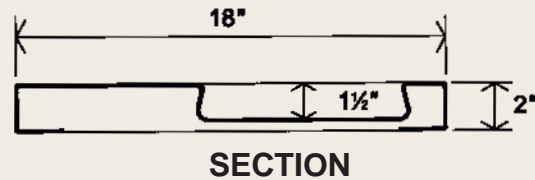

Stainless Steel Shelves

Shelf mounts below window to allow transfer of smaller items in the built-in deal tray.
 Shelf size: 12" deep x 2" high.
 Deal tray size: 11" x wide x 8¹/₄" deep x 1¹/₂" high.

Shelf is 18" deep x 2" high, providing a 7¹/₂" deep writing surface in front of the built-in deal tray. Deal tray section is 11" wide x 8¹/₄" deep x 1¹/₂" high. Various widths.

Counter Top with Drawer

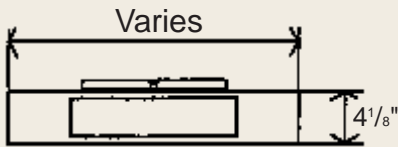

Patent Pending

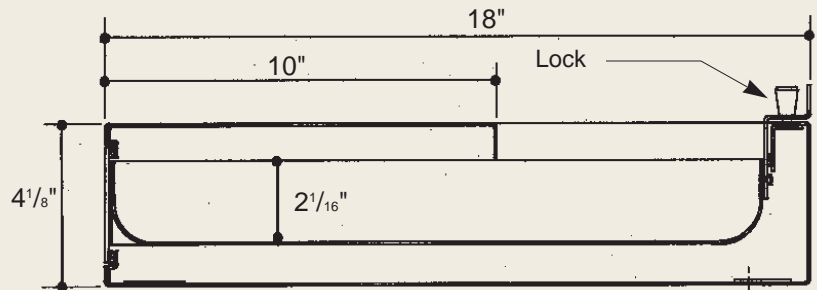

Stainless steel counter top with built-in drawer (patent pending) is ideal for stadiums, motels, banks or gas stations. Ample space is provided on top for writing surface. Drawer moves quietly on solid bearing slides and blends smoothly into front of counter top when closed. Drawer locks via turn latch in handle. Unit is weather-stripped to hold energy loss to a minimum. Inside drawer dimensions are 11⁷/₈" wide x 16" deep x 2¹/₁₆" high. Class I bullet resistant.

SECTION

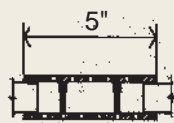

SC-100 Talk Thru

Side View

Four inch diameter aluminum anodized two-way electronic talk thru provides amplified clear voice communication. Standard model has gooseneck microphone for operator and plugs into 115 volt duplex outlet for continuous duty. Battery pack is available for DC operation (specify model SC-100L). Indicate glass thickness when ordering. Requires 3 1/2" diameter hole. SC-100 provides Class III bullet resistant protection.

5-FR Talk Thru

SECTION

Five inch diameter stainless steel talk thru has offset slots in front and rear to provide natural voice transmission. No. 5-FR Talk Thru is available as interior or exterior model (specify which) and fits glass from 1/4" to 1 1/4" thick. Indicate glass thickness when ordering. Requires 4" diameter hole. Level I bullet resistant.

No. 5-D Talk Thru

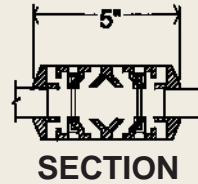

Patent Pending

Five inch diameter cast stainless steel talk thru with vertical louvers provides natural voice transmission. No. 5-D Talk Thru is available for interior or exterior use (specify which) and fits glazing from $\frac{1}{4}$ " to $1\frac{7}{8}$ " thick. Optional security screws and contraband screen are available.

Please indicate glass thickness when ordering talk thru.

Requires 4" diameter hole.

Class III bullet resistant.

No. 6-FR Talk Thru

Six inch round stainless steel talk thru has offset holes in front and rear to allow natural voice transmission. No. 6-FRTalk Thru is available as interior or exterior model (specify)

It fits glass from $\frac{1}{4}$ " to $1\frac{7}{8}$ " thick.

Denote glass thickness of window when ordering talk thru.

Requires 5" diameter hole.

Class I or III bullet resistant.

SECTION

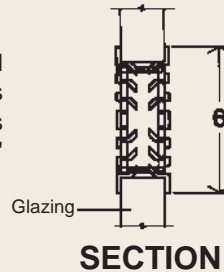

No. 6-D Talk Thru

Round 6" diameter cast stainless steel talk thru design offers natural voice transmission with evenly spaced concentric louvers. This unit is available as interior or exterior model (specify). No. 6-D Talk Thru is adjustable for $\frac{1}{4}$ " to $1\frac{7}{8}$ " thick glass. Glass thickness less than $1\frac{3}{16}$ " requires optional spacer ring.

When ordering indicate glass thickness of window.

Requires 5" diameter hole.

Class III bullet resistant.

SECTION

No. 8-D Talk Thru

Draft Free $8\frac{3}{8}$ " diameter cast aluminum talk thru is well suited for exposed application. Natural voice transmission is obtained through the tensed clear plastic diaphragm while eliminating air flow. Perforated clear security screen on customer side protects the diaphragm. Talk thru has bullet resistive shield on rear side.

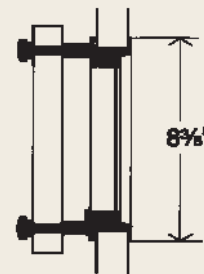

Unit is adjustable for glazing from $\frac{1}{4}$ " to $1\frac{7}{8}$ " thick. Optional spacer ring is required for glass less than $1\frac{3}{16}$ " thick.

Denote glass thickness of window when ordering.

Specify finish: clear or dark bronze anodize.

Requires $7\frac{1}{2}$ " diameter hole.

Class I or III bullet resistant.

SECTION

No. 11- D Talk Thru

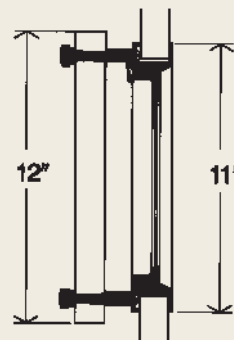

Draft free 11" diameter cast aluminum talk thru is meant for exterior installations. This model is larger version of our Model No. 8-D. 11-D Talk Thru is adjustable for glazing from $\frac{1}{4}$ " to $1\frac{7}{8}$ " thick. It requires optional spacer ring for glass less than $1\frac{3}{16}$ " thick.

Indicate window glass thickness when ordering talk thru.

Specify finish: clear or dark bronze anodize.

Requires 10" diameter hole.

Class I or III bullet resistant.

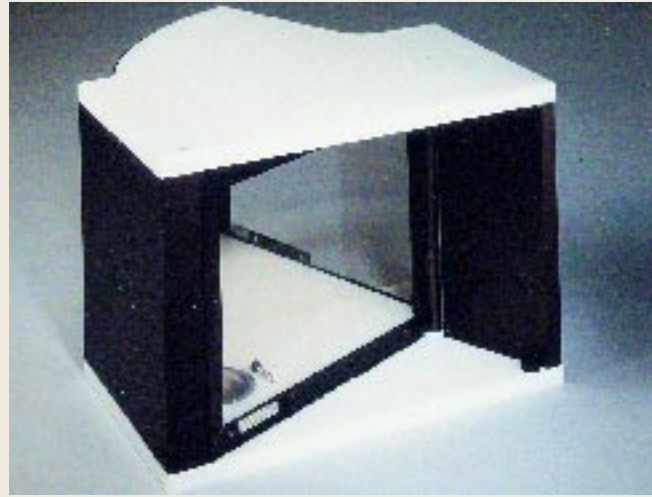

SECTION

Energy Pal Pass Thru Non-Bullet Resistant

Patented

Creative's Energy Pal is ideally suited for drive-up service. The pivoting shelf with Lexan doors turns outward to customer and inward to operator. Shelf has coin scoop and bill clip. Energy Pal prevents direct entry of outside air into the building. Energy Pal mounts on window ledge or wall opening for drive-up service. It locks with the adjacent Lexan windows forming an insulated barrier between outside and inside air. unit is weather stripped.

Energy Pal has 13" inside clear height.

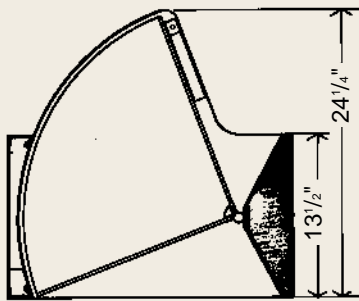

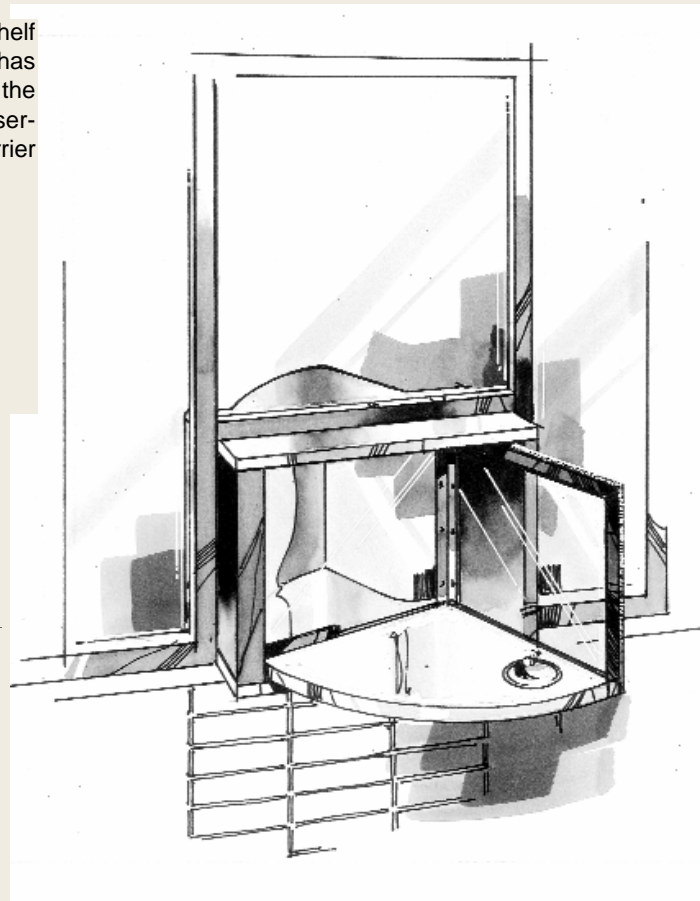

Construction:

Sides: Aluminum with clear or bronze anodized finish top and bottom:

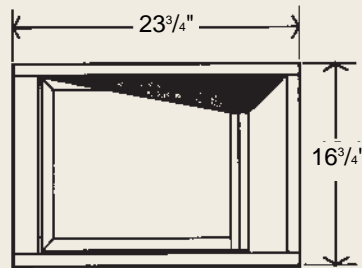

1" thick solid plastic

shelf: Solid plastic

Doors: Clear 1/4" thick Lexan

Recessed Deal Tray with Sliding Lid RSL 1414

Stainless steel recessed deal tray unit mounts flush in counter top with window (by others) centered above. Sliding lid has full width flange across rear which acts as handle. The lid slides on solid bearings, forward or backward to uncover desired section of deal tray below. Lid offers extra protection and helps minimize heat or cooling loss.

Deal Tray can accommodate item up to 10 1/2" wide by 4" deep by 2" high.

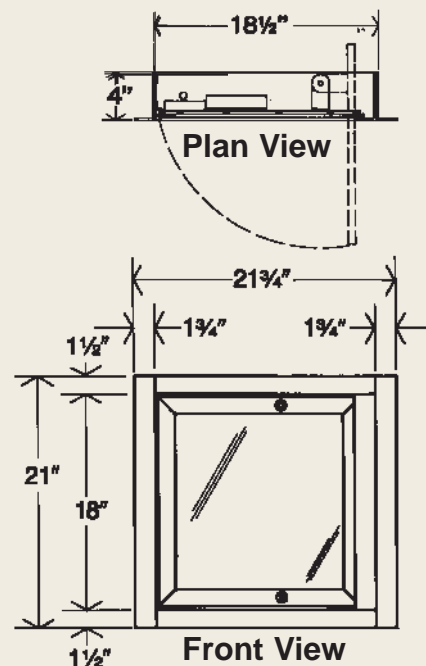

Overall size: 14" wide x 14" deep x 2 1/2" high.

Counter top opening size: 12 1/4" wide x 12 1/4" deep.

Flip Window Non-Bullet Resistant

The Flip Window is designed to allow less entry of outside air into the building than a normal sliding window. The window pivots for easy opening and closing. When open the front edge of window extends out only 8 1/2" from sill. Flip Window mounts between mullions for retrofit. Choice of glazing 1/4" Lexan or 1/4" tempered glass. The window locks with spring loaded dead bolt and has brush type weatherstrip. Frame available with clear or bronzed anodized aluminum. Standard size is 21 3/4" wide x 21" high overall with a clear opening of 15 1/2" wide x 17 1/2" high. Custom sizes are available.

Flip Window with Transom Non-Bullet Resistant

For new construction or retrofit, this unit can replace movable section of existing sliding window, reducing the size of the window which opens to the customer. Custom sizes and configuration available upon application. Standard size is 24" wide x 36" high overall.

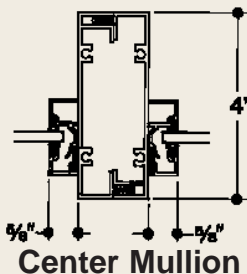

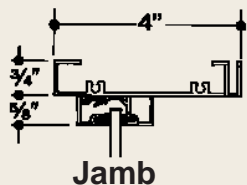

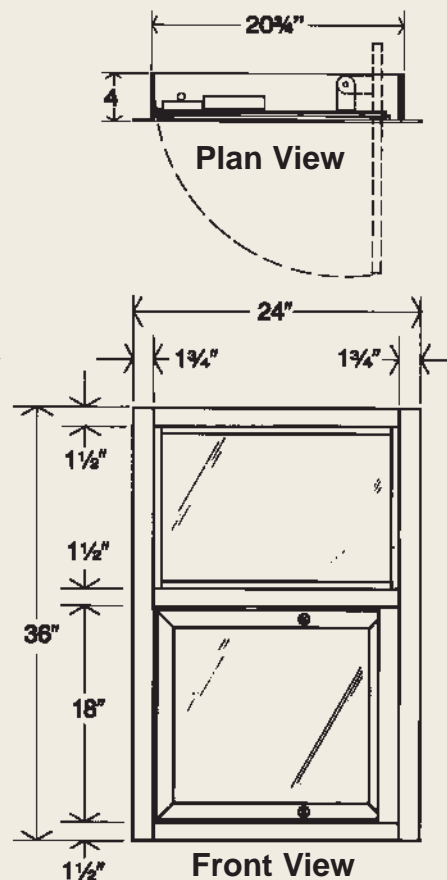

Illustration of Flip Window with Transom shown between two side lites.

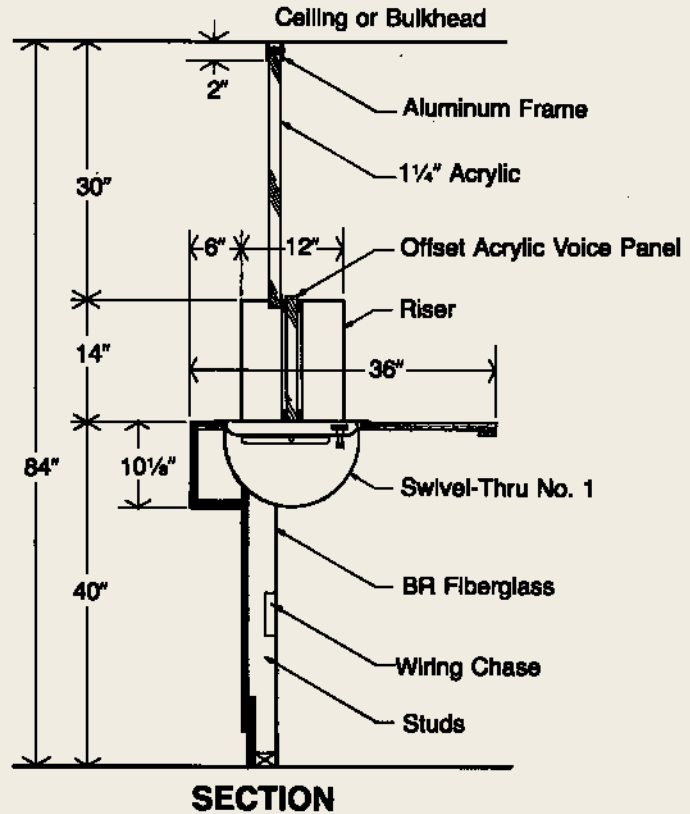

Example of Flip Window below full width transom.

Bullet Resistant Teller Counter Model BRTC-SWTH

Bullet Resistant Teller Counter Model BRTC-SWTH is furnished with Swivel-Thru #1 combination Pass thru and deal tray. It has a natural voice transmission acrylic panel at deal area, with acrylic panels above risers set in aluminum frames. Teller counter unit includes counter

top, risers and counter front with bullet resistant fiberglass panels on rear side. Electrical duplex outlets are mounted on rear side of risers (wiring by others). Standard unit is 60" wide x 84" high, Class I bullet resistant protection with 1 1/4" thick acrylic glazing.

Warranty

Creative Industries, Inc. warrants its products to be free from defects in material and workmanship under normal use and service for a period of (1) one year from the date of shipment.

Creative Industries, Inc. agrees to replace or repair the defective part(s) F.O.B. place of shipment or repay, upon return of the defective part(s), the price paid for the same by the purchaser. This does not include labor cost incurred in replacement.
